

Animalius Veterinary Internship Opportunities

Anaesthesia | Medicine | Dentistry | Surgery | High Dependency Unit

!!!! Multiple discipline specific internship opportunities available at Animalius in 2026 !!!!

Who We Are

At **Animalius Vet**, we're not your typical hospital — we're a community built on curiosity, care, and collaboration. Located in **Bayswater WA**, our independent multidisciplinary hospital exists to **support the wider veterinary profession, push boundaries in patient care and bring everyone along for the ride** as we help **transform the veterinary industry** for the better.

Our core values guide everything we do:

We're smarter together. We think differently. We fail fast and learn. We've got your back. We give a damn. Which one speaks to you most?

Our Team

We hire for values first. Our team is **genuinely supportive, stable and aligned**. A crew who **backs each other, celebrate wins big and small and keep learning together**. It's a workplace where curiosity is encouraged, mistakes are part of the process and everyone's voice counts.

The Opportunities

We're offering **separate, discipline specific, 12-month internships** in: **Medicine, High Dependency Unit (acute & critical care), Surgery, Anaesthesia and Dentistry**.

Start dates are flexible through **2025**, with all programs commencing **no later than mid-January 2026**. Here's the best bit — **most of our residencies are offered to our interns**, so your internship can naturally progress into the next step of your specialist training, right here at Animalius.

Who We're Looking For

We're after motivated, curious vets who are:

- Excited to learn and open to feedback
- Passionate about their chosen discipline
- Organised, adaptable and reflective
- Strong team players who thrive in a collaborative environment
- Desirable: already pursuing or holding **ANZCVS Membership**

hello@animalius.vet
www.animalius.vet

What You'll Experience

Dentistry – Support our clinicians, residents and nurses in delivering advanced dental and oral surgery care.

HDU – Be hands-on with acute and critical patients, working closely with medicine specialists and our incredible nursing team.

Anaesthesia – Work alongside specialist anaesthetists across all departments, with plenty of opportunity to run cases under supervision.

Medicine – Partner with clinicians and nurses on complex cases, supporting patients, clients and referring vets.

Surgery – Jump into our surgical team and learn specialist-level care in a truly supportive environment.

Hours

Our hospital is open 8am–6pm for visiting clients and patients.

Staffing hours vary between 7:30am and 6pm, with evening and overnight shifts running between 8–10 hours in duration.

- Medicine, Dentistry & Anaesthesia – 4-day week, Monday to Friday (between 7:30am–6pm)
- HDU & Surgery – rotating roster including days, evenings, and overnight shifts
- Closed weekends and public holidays

Why Animalius?

Because **we believe in people as much as patients.**

At Animalius, you'll be part of a team that genuinely cares about you, your growth and your future.

You'll get:

- Structured **teaching, feedback and mentorship**
- Cross-department learning and case discussions
- Participation in Journal Club and M&M rounds
- A **kind, curious and collaborative culture** (with plenty of laughs)
- A front-row seat to how we're redefining what great veterinary care looks like

How to Apply

We'd love to hear from you!

Please send your application to Animalius General Manager Alison Hall manager@animalius.vet

- A short statement (<300 words) about your experience and which discipline internship you are applying for
- Your current CV
- Two referees
